SAFETY SAM INSIDER TIP...

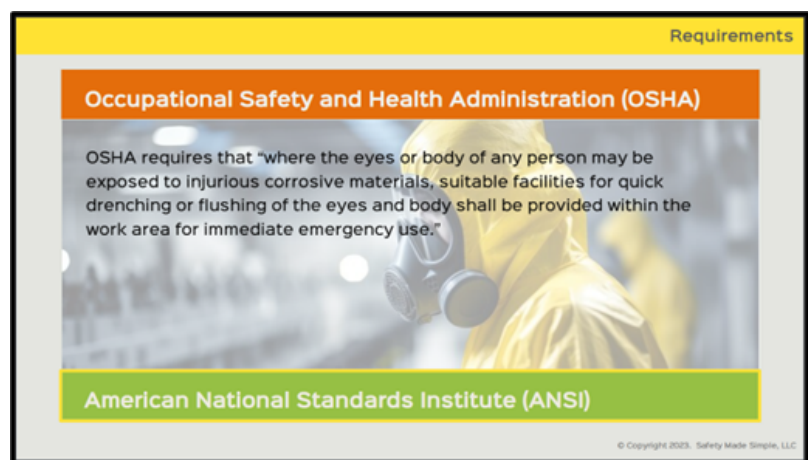

Rising prices continue to impact businesses across North America. In an effort to address inflation, we are offering companies who sign up with us prior to year-end the opportunity to lock in pricing with no annual increases.

Contact Us to learn more about our cost-effective approach to online training.

Featured New Safety Course

"Emergency Eyewashes and Showers"

According to the National Institute for Occupational Safety and Health, approximately 2,000 workers across the United States sustain job-related eye injuries requiring medical treatment each day. It is important for employees to quickly respond to hazardous chemical exposure.

Upon completion of this course, learners will be able to recognize how to protect themselves from exposure to hazardous chemicals and apply safe practices for using, inspecting, testing, and maintaining emergency eyewashes and showers. We also offer [courses](#) on personal protective equipment, hazardous chemicals, and emergency response.

Announcements:

New Instructor Led Training Courses now Available

Our new instructor led course versions separate the course material from the quiz. This allows an instructor to stop the course for discussion, as well as move forward/backward within the course. Upon completion of the classroom training session, attendees can be assigned the 10-question quiz to track attendance and comprehension. [Contact us](#) to learn more about this new classroom training solution.

TAKE 5 SAFETY MESSAGE

This Month's Take 5 Safety Message: "Commercial Truck Tire Safety"

This month's [Take-5](#) is now available.

Worn, damaged, and improperly inflated tires can cause vehicle accidents and result in enforcement citations. According to the National Transportation Safety Board roughly 33,000 accidents occur annually because of vehicle tires. This Take-5 Safety talk discusses several safe practices to keep you safe on the road.

Our "Take-5" safety talks can be accessed by your **Safety Made Simple** administrator at any time in the "Take-5" resources section of your company's training portal. Click [here](#) to check out our "Take-5" library.

NEW AND UPDATED COURSES

We continue to update existing courses and release new courses. Please check with your **Safety Made Simple** administrator for the courses available in your portal or click [here](#) to view our online course catalog.

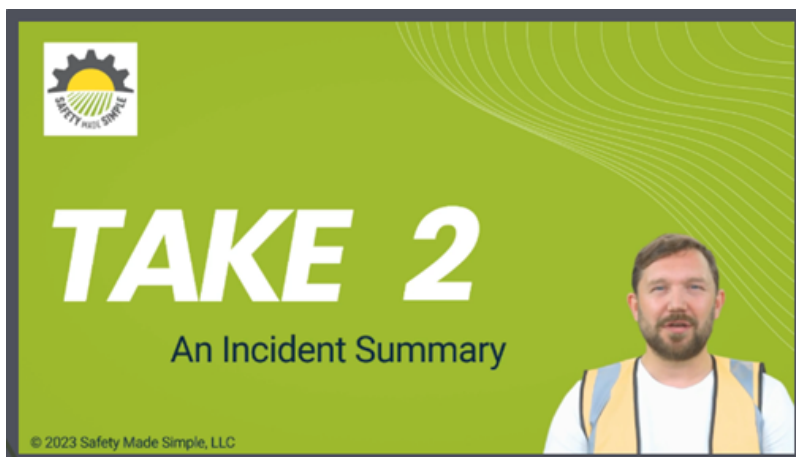

SHARE THE NEWS...

Safety Scoop Newsletter -

Do you know someone who would benefit from receiving these notices? We'd be happy to add them to our Safety Scoop mailing list! [Send us an email](#) and let us know the names and e-mail addresses you'd like us to add -- or use the signup link located at the bottom of our [website](#).

New Resource: "Take-2" Incident Summaries

Safety Made Simple's CEO, Chuck Pirie, has over 30 years of experience as a safety consultant in the agriculture industry. During this time, he's analyzed countless incidents resulting in serious injuries. Our "Take-2" video series will spotlight some of these incidents. According to Chuck, "the goal of our Take-2 videos is to raise awareness of hazards that impact the agriculture industry. Learning from the experience of others can help prevent future incidents." We will release a new "Take-2" each quarter. "Take-2" videos will also be available in the resources section of Safety Made Simple client portals.

Join us in Welcoming our Newest Partners

Please join us in welcoming our newest partners. Interested in partnering with us? [Contact us](#) to get started. Together we will send them home safely!

Meet our Newest Subject Matter Expert

Kayla Quinnell is a seasoned safety professional with over a decade of experience working with agricultural cooperatives. Her experience along with her professional certifications, positions her as a highly knowledgeable and experienced subject matter expert. According to **Safety Made Simple's** Joe Mlynek, "We are excited to add another exceptional subject matter expert to our team. Kayla's knowledge of agricultural cooperatives will help us ensure we continue to focus on the subjects our partners need."

This Month's Safety Simplified Blog: "Mobile Crane Safety"

Mobile cranes are used in various industries for maintenance and construction related projects. This month's blog discusses several important operating requirements outlined in OSHA 1926, Subpart CC, Cranes and Derricks in Construction. [Click here](#) to read this blog in its entirety.

Is It Safe?

Is it Safe? No way!

Emergency eyewash units must be accessible. Seconds count when the eyes are exposed to corrosive or caustic liquids or other hazardous chemicals. Some hazardous chemicals take only 6-8 seconds to penetrate the outer membrane of the eye, causing severe damage. Check out our [course catalog](#) for courses on personal protective equipment, hazardous chemicals, emergency response, and more.

If you you have a photo of a workplace situation that you would like to share, [send it to us!](#) We may use it in the Safety Scoop for others to learn from!
