SAFETY SAM INSIDER TIP...

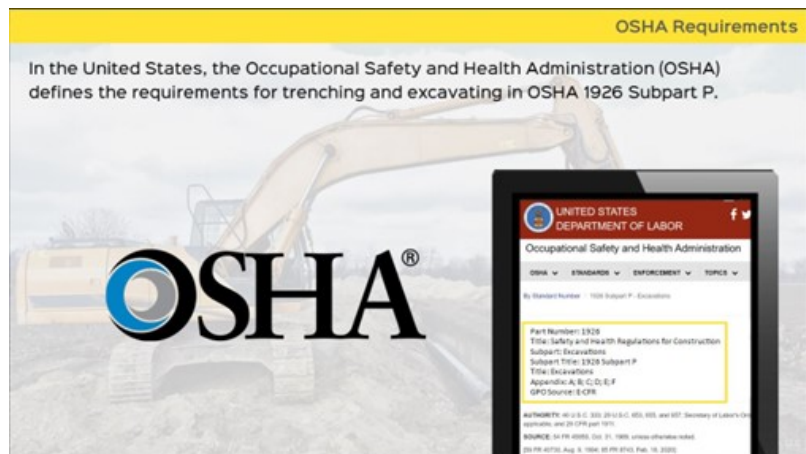

Our online training courses are perfect for grain elevators, flour and feed mills, ethanol plants, Ag service providers, equipment manufacturing facilities, agronomy centers, dairy farms, feedlots, ranches, commercial farms, and marine and barge loading facilities.

Contact us to learn how we can assist with your safety training efforts. Together we can send them home safely!

TAKE 5 SAFETY MESSAGE

Featured Course

"Trenching and Excavating"

According to OSHA, 39 workers died as a result of trench collapses in 2022. Our new Trenching and Excavating course focuses on common trenching and excavating hazards, the types of required protection systems, and safe work practices that can prevent serious injury and death related to excavation work.

Announcements:

Join Us in Welcoming Our Newest Partners

We are excited to announce that we recently welcomed several new partners. Special thanks to Sam Germer and Kris Califano for working with these organizations to find the right solution for their needs. Click [here](#) to learn more about partnering with **Safety Made Simple**.

This Month's Take 5 Safety Message: "The ABC's of Fall Protection"

This **Take-5** covers the components of a personal fall arrest system.

This and other "Take-5's" can be accessed by your **Safety Made Simple** administrator at any time in the "Take-5" resources section of your company's training portal. Click [here](#) to check out our "Take-5" library.

NEW AND UPDATED COURSES

We continue to update existing courses and release new courses. Please check with your **Safety Made Simple** administrator for the courses available in your portal or click [here](#) to view our online course catalog.

SHARE THE NEWS...

Safety Scoop Newsletter - Do you know someone who would benefit from receiving these notices? We'd be happy to add them to our Safety Scoop mailing list! **Send us an email** and let us know the names and e-mail addresses you'd like us to add -- or use the signup link located at the bottom of our **website**.

SMS Online Training - If you know someone who isn't using **Safety Made Simple** but might be interested, let us know. Please also tell us if you know someone who would like to schedule a free demo.

Give us a call toll-free at 1-844-8SAFETY today!

Is It Safe?

Is it Safe? No Way!

The covers on electrical panels must be properly secured. Notice the loose screws on this panel. When properly secured, covers provide protection against exposure to live conductors and offer limited protection against arc flash. We offer courses on electrical safety and arc flash. Click [here](#) to check out our searchable online course catalog.

If you you have a photo of a workplace situation that you would like to share, [send it to us](#)! We may use it in the Safety Scoop for others to learn from!
