SAFETY SAM INSIDER TIP...

As the year ends, we'd like to thank our partners for putting their trust in us. In 2023, we remain committed to providing each of you with superb service, new and updated courses, and a world class learning management system. Together we are impacting people's lives and most importantly, sending them home safely!

TAKE 5 SAFETY MESSAGE

This Month's Take 5 Safety Message: "Compressed Gas Cylinder Inspections"

Featured Course

"Belt Conveyor Safety"

Belt Conveyor Components

Open belt conveyors are used in many industries. They can be stationary or mobile. Click the highlighted icon for more information.

© Copyright 2022. Safety Made Simple, LLC.

Open belt conveyors move products such as grain, fertilizer, sand, stone, coal, and iron ore easily from one point to another. While efficient, they also pose serious safety hazards. Upon completion of this course, learners will be able to recognize and identify conveyor components and their hazards and apply safe practices to protect themselves during housekeeping and maintenance activities.

Safety Made Simple offers a wide range of online safety courses. [Click here](#) to view our searchable online course catalog.

Announcements:

Happy Holidays from **Safety Made Simple**

We wish each of you a safe and enjoyable holiday season. On behalf of our partners, we've donated to the following worthy causes:

- Young Life
- Alzheimer's Association
- Cowboys of the Cross
- Rotary Club of Boone
- All Nations Family
- National Breast Cancer Foundation
- St. Jude's Research Hospital
- American Red Cross
- Salvation Army

Compressed gases are stored in heavy walled metal cylinders designed and tested for use with compressed gases. This [Take-5](#) covers the importance of routine cylinder and cylinder storage area inspection as well as what to look for.

This and other "Take-5's" can be accessed by your **Safety Made Simple** administrator at any time in the "Take-5" resources section of your company's training portal. Click [here](#) to check out our "Take-5" library.

NEW AND UPDATED COURSES

We continue to update existing courses and release new courses. Please check with your **Safety Made Simple** administrator for the courses available in your portal or click [here](#) to view our online course catalog.

SHARE THE NEWS...

Safety Scoop Newsletter -

Do you know someone who would benefit from receiving these notices? We'd be happy to add them to our Safety Scoop mailing list! [Send us an email](#) and let us know the names and e-mail addresses you'd like us to add -- or use the signup link located at the bottom of our [website](#).

SMS Online Training -

If you know someone who isn't using **Safety Made Simple** but might be interested, let us know. Please also tell us if you know someone who would like to schedule a free demo.

Safety Made Simple's Joe Mlynek to Deliver GEAPS Webinar in December

Our very own Joe Mlynek is delivering a webinar for GEAPS on January 18th, 2023. GEAPS members can register by clicking on the image below.

The banner features a dark blue background with a faint image of grain silos. On the left is a circular portrait of Joe Mlynek. To the right of the portrait is his name and credentials: 'Joe Mlynek CSP, OHST Safety Made Simple'. Further right, the date 'January 18, 2023' and time '10:00 - 10:30AM (CENTRAL)' are displayed with calendar and clock icons. A green 'Join Now' button is positioned below the time. The GEAPS logo is in the top right corner, and the URL 'GEAPS.COM/WEBINARS' is at the bottom right.

This Month's Safety Simplified Blog - "Confined Space Entry: Written Program Requirements"

The Occupational Safety and Health Administration's Permit Required Confined Spaces standard 1910.146 requires employers entering confined spaces to implement a written permit space program. This month's blog covers several important elements of an effective written program. Click [here](#) to read the blog in its entirety.

Come on Man!

Some pictures are worth a thousand words. This one was sent to us by one of our partners. Interesting take on a wheel chock and a jack.

If you you have a photo of a workplace situation that you would like to share, [send it to us!](#) We may use it in the Safety Scoop for others to learn from!
